

**Rajendra Mane College of Engineering and Technology,  
Ambav (Devrukh)**

**Department of Mechanical Engineering  
Career Guidance Lecture on**

**“Awareness in the field of Oil, Gas and Power industries”  
(9 February, 2017)**

**In association with “Suvidya Institute of Technology, Mumbai”**

Mechanical Engineering Student’s Association (MESA) organized , a career guidance lecture on “Awareness in the field of Oil, Gas and Power industries” on 09/02/2017 at 2.30 pm to 4.30 pm for the Final year Mechanical and Automobile Engineering students in the seminar hall of RMCET main building.

(Prof. R.V. Dandage introducing the resource person Mr. Vasant Mestry )

The lecture was organized in association with Suvidya Institute of Technology, Mumbai. The resource person was Mr. Vasant Mestry, Managing Director and Founder of Suvidya Institute of Technology, Mumbai. He is also CEO and founder of EPC consulting company M/s Accent Techno Solutions, Mumbai. He has 30 years of experience in the engineering design, procurement, construction and designed more than 100 Green Field and Brown field Projects in India and Abroad.

(Principal Dr. M.M. Bhagwat expressing his views about the career guidance lecture)

Principal Dr. M.M. Bhagwat felicitated Mr. Vasant Mestry and extended his sincere thanks to him for keeping keen interest in development of RMCET students.

(Mr. Vasant Mestry delivering the session)

Mr. Mestry introduced the various facets of Oil and Gas industries like upstream, midstream and downstream industries and explained the various opportunities available for Mechanical Engineers. He also gave the brief idea about the industrial development plan for year 2035 and discussed about the possible changes in industrial sectors. He mentioned that in the coming years

HVAC (Heating, Ventilation and Air Conditioning) Engineers and MEP (Mechanical, Electrical and Plumbing) Engineers will have huge demand in the industries.

(Mr. Vasant Mestry delivering the session)

This interaction with the students created interest among the students about the field and the latest developments in the Mechanical Engineering Industries. It encouraged the students to prepare themselves for the opportunities in HVAC sector also.

The career guidance lecture was coordinated by Prof. R.V. Dandage in association with Prof. A.R. Suware.
