During the seminar, Mr. Phadke explained about the fundamental aspects of CAD/CAM and CAE field. He gave overview of the various software tools which are used by various industries for the Computer Aided Engineering (CAE). He focused on the application of the CAE in Vehicle Crash Analysis. The various types of tests that are performed during the crash analysis by car manufacturing companies were explained.

Total 54 students of BE Mechanical Engineering attended this seminar. Prof. R. V. Dandage (Head, Industry Institute Interaction Cell) coordinated the seminar. The students expressed that the seminar was really helpful in

creating awareness about the application of CAE for Vehicle Crash Analysis.
